

Placement Cell

Being one of the most important steps in students' career, the campus placement plays an important role to build up & raise confidence on their abilities, skills. The placement cell benefits not only to students but also to the recruiting companies, factories as they get right talent for right place which may improve their business/profession progress. Moreover it highlights the College /Institute Profile. The Institute has built an impressive infrastructure beneficial for co-curricular activities and academics. A good team- work is carried out throughout the year by Placement Cell for arranging campus interview.

➤ **The objective of place cell:**

- Managing Recruiters correspondence and feedback
- Provide opportunity to maximum job seeker students
- Finding, getting, informing and managing Pool Placements drives

➤ **Activities of placement cell:**

- Reviewing profile of reputed sugar industries, machinery manufacturers, allied industries and distilleries
- Remains continuously in touch with such companies/industries/distilleries
- Knowing interest, needs & criteria of recruiting companies, industries
- Providing information of passing out students' to companies
- Arranging campus interviews of passing out students
- Coordinating the various placement activities like written/ practical test, group discussion
